Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) s 28-29, drawn to a method for a painless injection of an aqueous solution.

Group II, claim(s) 30, drawn to a method for tissue-saving injection.

Group III, claim(s) 31, 31-49, 52, 52, 54-57, 78, and 79 , drawn to a kit.

Group IV, claim(s) 58-77, drawn to an injectable aqueous solution and use thereof.

Group V, claim(s) 80-81, 84-87, 96-101, 110- drawn to a method of reducing vascular damage.

Group VI, claim(s) 82, 88-91, -102, -111, drawn to a method of reducing pain.

Group VII, claim(s) 83, 92-95, 103-109, 112, drawn to a method of reducing diffusion.

The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Methods of Groups I, V and VI do not relate to a single inventive concept in that they may be accomplished by means other than by the instantly claimed injection. Further, each method is directed towards methods which do not share an inventive concept. The kit and injection of Groups II and III do not share an inventive concept in that the solution of the kit may be used for Iv or catheters.

A telephone call was made to John S. Child, Jr on Tuesday , September 16, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1615

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
